

SOFTWARE TESTING & QA

THE TRANSLATIONS.COM ADVANTAGE

Due to the complexities of software translation and localization, many issues do not become apparent until the software is used in the runtime environment. By testing your software in its native context, we detect the types of errors that can devalue the user experience and result in sub-standard performance, such as:

<p>TEXT EXPANSION/ TRUNCATION</p>	<p>EXTERNALIZATION OF STRINGS</p>	<p>INCORRECT TRANSLATIONS</p>	<p>CHARACTER ENCODING/ FONT ERRORS</p>	<p>LOCALE ISSUES</p>
---------------------------------------	---------------------------------------	-----------------------------------	--	----------------------

RIGOROUS METHODOLOGY

<p>Guaranteed Valid and Reportable Results</p>	<p>Software-Specific Training</p>	<p>Progress Management</p>	<p>Debrief</p>
--	-----------------------------------	----------------------------	----------------

CUSTOM DOCUMENTATION

<p>End-to-End Planning and Documentation</p>	<p>Adherence to Client-Requested Procedures</p>	<p>Easily Accessible Reporting, Dashboards, and Metrics</p>
--	---	---

VALIDATED TECHNOLOGY

<p>Flexible Test Management System</p>	<p>Detailed Test Execution Tracking</p>	<p>Easy-to-Use Bug Management</p>
--	---	-----------------------------------

DEDICATED TO EXCELLENCE

COMPLETE SEPARATION OF "DOING" AND "CHECKING" PER BEST-PRACTICE METHODOLOGY	
400+ LINGUISTIC AND FUNCTIONAL TESTERS	LINGUISTIC TESTING
	USER EXPERIENCE TESTING
GLOBAL GROUP OF SECURE, FULL-SERVICE TESTING CENTERS	
COMPATIBILITY TESTING	40+ LANGUAGES
ON-SITE TEST LEAD SUPPORT AND CONSULTING	
INTERNATIONALIZATION AND TRANSLATION OF SOFTWARE STRINGS	
20+ YEARS OF EXPERIENCE	EXPERIENCED WITH ALL TYPES OF DEVICES, INCLUDING MOBILE, MEDICAL, FITNESS, AND MORE

Don't let program issues and bugs diminish the value of your localization efforts. Launch your post-localization testing strategy today to ensure that your customer experience remains at peak performance, just as these Translations.com partners already have.
